Creating Your Ideal
University Society

Session Overview

In this session you will use what you've learned about university societies to design the ideal society you would want to join at university. In the next session you will then create this society in Minecraft.

Learning Objectives

At the end of this session you should: -

- Know what a university society is and what they do.
- Have designed your own society.

Designing Your
Society

Designing Your Society

- You will spend time during this session brainstorming with your flatmates ideas for your ideal society.
- You should complete as much of the following as possible: -
  - Come up with a name for your society.
  - Design a logo.
  - Outline what your society does.
  - Outline a typical week/month with your society look like.
  - Think about how your society will encourage other people to join.
  - Think about how you will make your society accessible and inclusive.

Extra Challenge

CONTENT TO BE ADDED

Wrapping Up

Learning Objectives Revisited

You should now: -

- Be able to explain what a university society is and what they do.
- Have designed your own society with your flatmates.
- Be ready to start creating your society in Minecraft.
